

SUMMER 2021-22

Message - "The soul of Engineering education lies in its applicability to resolve societal problems. At department of civil Engineering we have conducive environment for idea building and its implementation to boost students' confidence and make them employable. Also building entrepreneurs is another target of the department. The facilities available and the sort of support extended by faculty to the student community is our unique selling point."

Mr. Shetgar C A,
ME (Geotech), HOD, Civil Department
